

## AUTOMATIC LUBRICATION SYSTEMS

HELPING, NO MATTER WHAT MOVES YOU

### CONSTRUCTION

The savings of time & money with automatic lubrication grows with each hour of operation on small-to-giant off-road equipment.

### MANUFACTURING

Greasing machinery in motion provides consistent lubricant coverage to critical bearings and other wear components.

### FLEETS

Minimize component wear, reduce downtime, and optimize resources by utilizing automatic lubrication for on-road vehicles.

### VEHICLE SERVICES

Streamline workflow with equipment to monitor, control, manage and dispense fluids throughout the shop.

## TAKE THE GUESS WORK OUT OF LUBRICATION

GreasePoint helps people in manufacturing & construction with lubrication. We provide traditional and custom lubricant delivery equipment, on-site training, and inspection services.

### THE BENEFITS:

- ✓ Minimize Machine Downtime
- ✓ Decrease Consumption of Lubrication
- ✓ Reduce Wear: Extend Equipment Life
- ✓ Safer & Healthier Work Environments
- ✓ Lower Maintenance Costs & Repairs

## GREASEALERT

GreasePoint's 'GreaseAlert' is an exclusive Industrial Internet of Things (IIoT) remote lubrication monitoring system. It proactively communicates with equipment managers alerting them to potential problems and avoiding catastrophic failures.

## GRACO PUMP REPAIR

With the help of our sister brand, PennAir, GreasePoint offers inspection and repair services for your Graco grease and oil pumps. Simply visit PennAir's **factory-trained walk-in service counter** to get back into operations quickly.

**Spare pumps can be purchased at a discounted rate** to keep lubricants flowing while you wait.

## AUTOMATIC LUBRICATION SYSTEMS

HELPING NO MATTER WHAT MOVES YOU

## MACHINE &amp; VEHICLE INSPECTION SERVICES

Inspection of Automatic Lubrication systems is **completed on-site by fully trained technicians**. The service we provide maximizes equipment availability while minimizing unscheduled downtime and maintenance breaks. Our service trucks arrive stocked with many common repair parts, often making this a one-stop fix, allowing you to focus on what matters most, freeing you to leave work at work.

## INSPECTION FEES

To accommodate your schedule we offer half-day, full-day, and evening/weekend inspections. Any minor labor repair labor is covered during inspection with parts changed extra.

## SUMMARY REPORT

We provide individual reports specific to each machine to include: the type of system, pump model number, metering device type, loaner pump options, the test results of each inspection, and our recommendations to keep your equipment healthy.

## MEET THE TEAM

**Joe VanThuyne**  
*GreasePoint Manager*

Supporting the  
Mid-Atlantic Region

**Mark Pendergrass**  
*Outside Sales*

Supporting VA, East  
NC, WV & DC Metro

**Adam Roesler**  
*Outside Sales*

Supporting NJ, MD,  
DE & East PA

**Andrew Kehoe**  
*Inside Sales*

Supporting the  
Mid-Atlantic Region

Products ranging from single-point grease feeders to complex automatic systems.

Designs and builds high-quality, reliable and modern lubrication equipment and systems.

Offers automatic lubrication systems for all kinds of equipment in a wide variety of market segments.
