

THE ONLY CHOICE IN HEAVY EQUIPMENT FIRE SUPPRESSION

WHY FIRE SUPPRESSION SYSTEMS?

- Increase safety
- Reduce risk associated with machine application and harsh operating conditions
- Reduce damage and loss related to a fire
- Reduce exposure in the event of a fire
- Avoid the expense of replacing equipment
- Avoid productivity loss associated with equipment downtime

WHY AFEX SYSTEMS?

OUR EXPERIENCE

- 50 years of experience protecting heavy equipment
- The only manufacturer specializing in mobile equipment fire suppression systems (it's all we do!)
- The first and only major manufacturer to pass FM HDME (Heavy-Duty Mobile Equipment) approval

OUR SYSTEM DESIGN

- Custom systems configured to meet the unique hazards of your machine (one size does not fit all!)
- Dual agent suppression systems for maximum performance and protection
- Seamless vehicle integration with optional remote activation
- Side-cartridge design for reliability and ease of servicing
- Rugged stainless steel distribution network reduces ongoing maintenance costs
